

## West Country Ancestors

### Procedure

- 1.You send us details of the person or persons to be researched.
- 2.We make an initial survey. If we feel we can be of help and after discussion we shall proceed to step 3.
- 3.We produce a **Benchmark Report** of our findings and recommendations, the result of 10 hours of work. This will be an outline of your tree back to the early 1800's.. We shall suggest further lines of research if desired.
- 4.Should you wish us to continue and proceed to **Classic** we would carry out a further 10 hours research. This research will include further discoveries and bring your family history to life with more photos, maps, ancestral landmarks and graphics where appropriate etc. .
- 5.Your full Family History will be held together with ring comb binding rings. However having gone so far we would suggest you proceed to **Touchstone** or **Exemplar** which will be bound in hardback.

*Look unto the rock whence you are hewn.

### Your Family History

Based on information discovered below. The story of your family told in the context of their times. It will include photos and descriptions of the villages they lived in. We can also include your family photos.

Documents found may include

- Birth, Marriage and Death Certificates
- Census returns
- Parish Registers
- Land Taxes
- Directories
- Wills
- Settlement papers
- School Reports
- Churchwardens and Overseers accounts

An example below of the 'coffee table' presentation that comes with TOUCHSTONE and EXEMPLAR research. Bound in hard back with buckram and a dust jacket it makes a wonderful birthday or anniversary present..

22nd June 2006  
Dear John Campbell,  
Thank you for the professional way you have researched our Petrick & Clements families - and the clear & beautiful way you have presented the fruits of your labour. My wife and I are absolutely delighted.

Equally I have explained to your husband that, if he is offering his services professionally, I would be glad to provide any form of recommendation or reference.
